DID YOU KNOW?

Our Harvest Menus focus on fresh and high quality ingredients that are grown locally or sourced from neighbouring Southeast Asian countries to reduce carbon footprint.

To increase the health benefits of our Harvest Menus, we:

- Use low fat milk or yoghurt to replace heavy cream in our cooking.
- Utilise specially designed cooking methods, such as sous vide, slow-steam and dehydrators.
- Avoid using meat high in fats, such as beef, lamb or other red meat.
- Do not further process the ingredients or use additives, preservatives, artificial flavourings, food colourings and MSG.

MEET GREEN LIVE WELL PACKAGE

Our popular Sands ECO360 Meetings Programme, *It's Easy Meeting Green*, now comes with new wellness features. The refreshed package aims to provide a convenient and comprehensive green lifestyle experience for meetings.

From banning shark's fin in 2014 to not using seafood in the 'Avoid' Red List of WWF Singapore's Sustainable Seafood Guide, we now procure 100 percent of our salmon, tilapia, prawns, mussels, lobster and oysters from sustainable sources.

Recognising our efforts, WWF had endorsed our Green Meeting Packages and Harvest Menu for their commitment to sustainability. We will continue to update our menus and review demand for resource-intensive seafood products in order to further improve responsible sourcing.

INVESTING IN SUSTAINABLE BEST PRACTICES

In partnership with WWF, we have committed to support four fish farms in Malaysia in their journey towards sustainable fishing practices through environmental measures, as well as to generate a positive social impact on their local community.

 By booking an "It's Easy Meeting Green" package, you'll automatically be helping. As long as your event is held between 26 October 2017 and 31 July 2018, we've pledged to donate \$1 per delegate to WWF to support local farmers to adopt sustainable business practices. It's easy to play your part!
